WATER FILTRATION SYSTEM

Profitable Solutions for Paper Industries

FOMAT provides water automatic filters for all your needs.

FAFF FILTER

Filter for fresh water

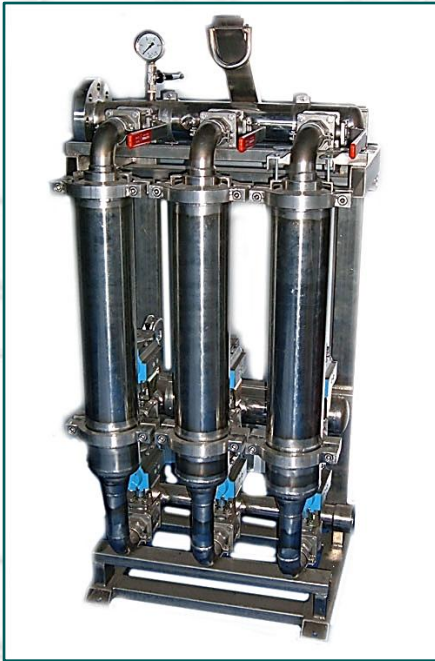

OTOCINCLUS

Filter for clarified water

Fresh water filter FAFF Features

FAFF FILTER

Filter for fresh water

- *Self-cleaning system in backwash*
- *Possibility to change the filter from 50 to 500 micron*
- *Working pressures up to 40 bar*
- *Implementation completely in stainless steel*
- *Modular system*
- *Fast and easy installation*
- *Quick Cartridge Change*
- *Guaranteed nominal flow*

Clarified water filter OTOCINCLUS Features

OTOCINCLUS

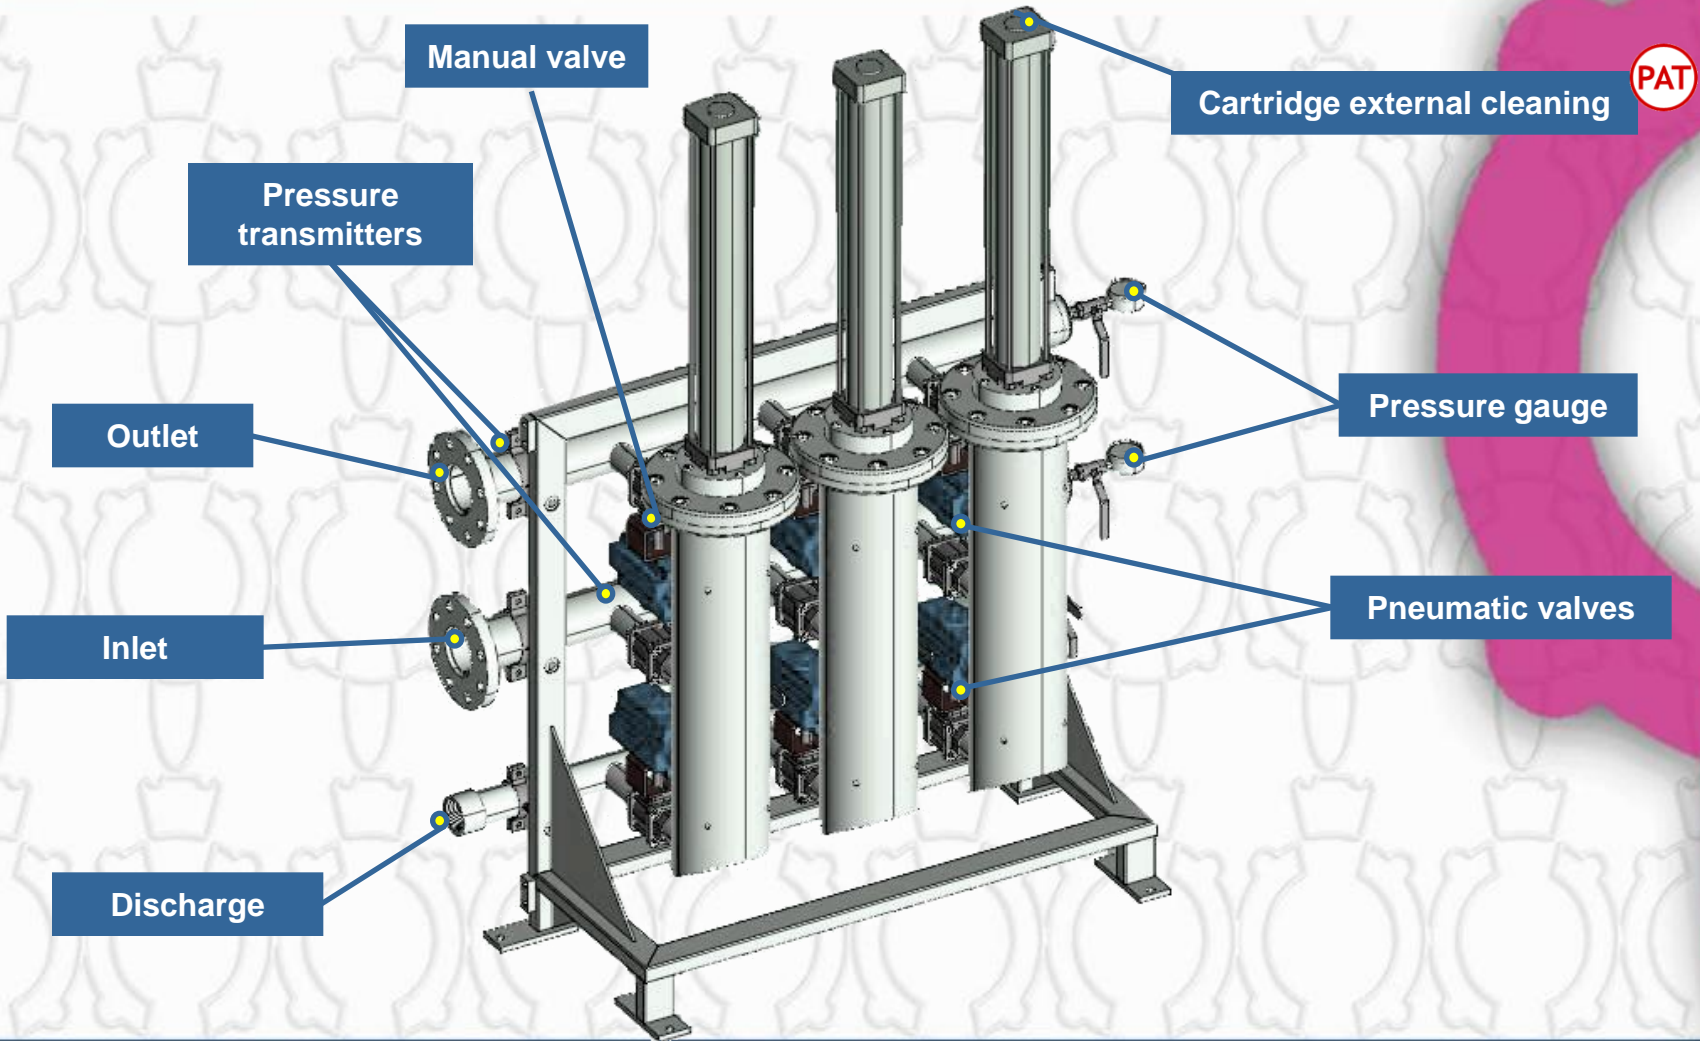

Filter for clarified water

- *Mechanical self-cleaning system in backwash (patented)*
- *Possibility to change the filter from 50 to 500 micron*
- *Working pressures up to 40 bar*
- *Implementation completely in stainless steel*
- *Modular system*
- *Fast and easy installation*
- *Quick Cartridge Change*
- *Guaranteed nominal flow*

Profitable Solutions for Paper Industries

OTOCINCLUS *Features*

Advantages OTOCINCLUS

Fomat Otocinclus

•MAIN ADVANTAGES:

- *Preventing the nozzle clogging*
- *Reducing maintenance of shower pipes*
- *Lower consumption of water*

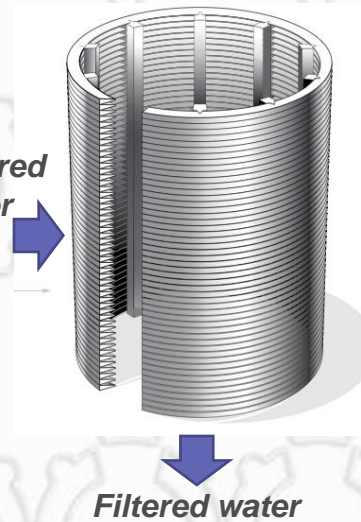

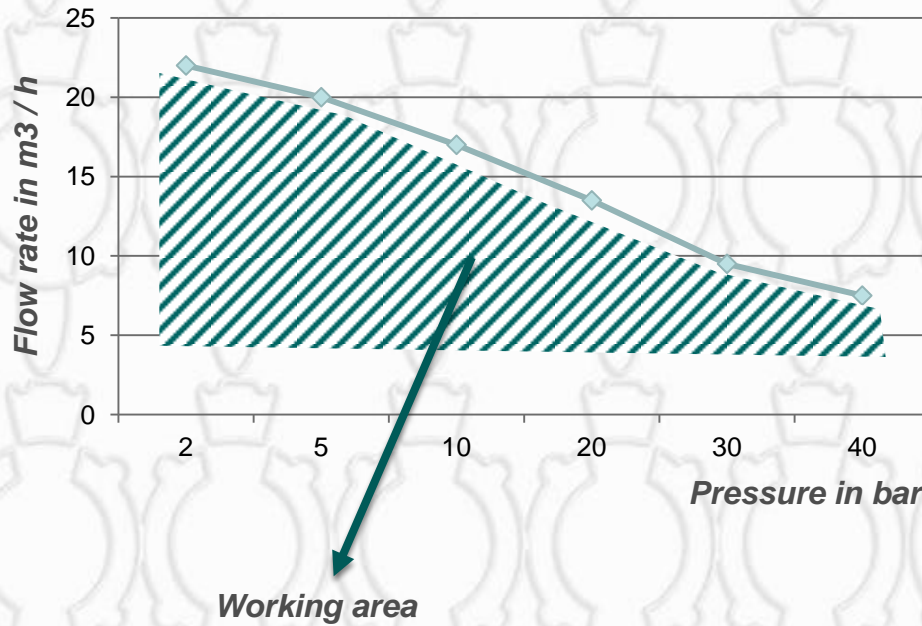

Conventional filter

•MAIN BENEFITS:

- *Simple operation*
- *Fast installation*
- *Quick cartridge change*
- *Easy inspection & cleaning*
- *Guarantee nominal flow*

Features OTOCINCLUS

Single element specification:

- **Constant size of filter elements:**
- **Diameter = 57 mm**
- **Length = 440 mm**
- **Minimum pressure for backwash 2bar**
- **Filtration from 50 to 500 micro (mm)**
